

Business Edition 6000S Software Load Summary Export Restricted Version 10X11X-K9-01

This document details the software that has been preloaded on server module of this product for your convenience.

Every attempt is made to keep the software versions in this build as up to date as possible; however, it may be the case that newer code has been released since this product was manufactured. Before using this software, please ensure that you have the latest versions, available either from [Cisco Software Center](#) (CSC), or via [Cisco Electronic Software Delivery](#) (eSD). Details of how to use Electronic Software Delivery are provided via email when ordering licenses for your chosen applications. Table 2 below lists the included files and indicates where they may be found online for download.

Installed Applications

Business Edition 6000S server modules ship with a number of application virtual machines preinstalled to simplify system deployment. Unified communications applications are fully installed and configured with a common baseline configuration. Prime Collaboration Provisioning is also preinstalled and configured, ready to add users and devices to the preconfigured applications. Cisco Paging Server is deployed, ready for configuration. Refer to the [Business Edition 6000S Installation Guide](#) for further information. Table 1 summarizes the installed applications for this build.

Table 1. Preinstalled Applications (New and updated software **highlighted**)

Application	Version	Scale	Pre-installation Method
Cisco Unified Communications Manager	10.5(2)	150 Users	Fully installed and preconfigured application
Cisco Unified Communications Manager IM & Presence	10.5(2)	150 Users	Fully installed and preconfigured application
Cisco Unity Connection	10.5(2)	150 Users	Fully installed and preconfigured application
Cisco Paging Server	9.1(1)	Standard	Fully deployed application OVA
Cisco Prime Collaboration Provisioning	10.6(0)	Small	Fully installed and preconfigured application

Software Version

The hypervisor datastore on this server module includes installation files for Collaboration Solution Release 10.6 unified communications (UC) applications listed in Table 2 only. No other applications are supported by the BE6000S at this time.

Table 2. Preloaded Software

Application / File	Filename	Access
Cisco Unified Communications Manager & Cisco Unity Connection¹		
- Common version 10 application image	Bootable_UCSInstall_UCOS_10.5.2.10000-5.sgn.iso	eSD
- Version 10 recovery image	10.5.2.10000-5-recovery.iso	CSC
- Version 10 UCM virtual machine template	cucm_10.5_vmv8_v1.8.ova	CSC

¹ Upgrade images are available via eSD.

Application / File	Filename	Access
- Version 10 CUC virtual machine template	CUC_10.5_vmv8_v1.5.ova	CSC
Cisco Unified Communications Manager IM & Presence		
- Version 10 application image	Bootable_UCSInstall_CUP_10.5.2.20000-1.sgn.iso	eSD
- Version 10 recovery image	10.5.2.20000-1-recovery.iso	eSD
- Version 10 virtual machine template	cucm_im_p_10.5_vmv8_v1.1.ova	CSC
Cisco Paging Server		
- Virtual application installer	CiscoPagingServer_9.1.1.ova	CSC
Cisco Prime Collaboration Provisioning		
- Version 10 virtual application installer	cpc-provisioning-10.6.0-1015-small.ova	CSC
- Version 10 Batch Provisioning Templates	Batch_samples_PCP10.6.zip	-
Virtualization Hypervisor		
- Application image (optional upgrade)	ESXi-5.5.0-2068190-custom-Cisco-5.5.2.2.iso	eSD or VMware
- Client Installation package	VMware-viclient-all-5.5.0-1993072.exe	VMware

Additional Software

To ensure consistency across Cisco Collaboration products, licensing purchased with the Business Edition 6000 may also entitle you to use the applications listed in the following table. Software for these applications have not been included in this software bundle as they are not currently supported by the BE6000S. If you would like to use these applications and have the appropriate license and hardware, software may be obtained through eSD or Software Center.

Table 3. Additional Software

Application	Entitlement / Requirements	Access
Cisco Prime Collaboration Deployment	Available with all UCM 10.x user license purchases. Requires Foundation Hypervisor license for managed hosts.	eSD
Cisco Prime Collaboration Assurance	Standard license available for all UCM deployments. Requires 6 vCPU and 14GB vRAM.	CSC
Cisco WebEx Meeting Server	Available with CUWL Pro licensing. Requires dedicated server and Foundation Hypervisor license and vSphere license.	eSD
Cisco Prime License Manager	Available as a standalone application if required. Consider using the integrated version provided with each Unified Communications Manager or Unity Connection installation in the first instance.	eSD
Cisco Expressway	Available with all UCM 10.x user license purchases.	CSC / eSD
Cisco Telepresence Conductor	Available with CUWL Pro / Personal Multiparty licensing.	CSC / eSD
Cisco Telepresence Server on Virtual Machine	Available with CUWL Pro / Personal Multiparty licensing.	CSC / eSD
