The bridge to possible

CCIE Practice Labs

Affordable lab exam rental for CCIE lab exam preparation

CCIE Practice Labs are the practical, affordable way to help you prepare for your CCIE lab exam. After you pass a CCIE written exam, you are eligible to reserve a spot in the associated CCIE Practice Lab session.

You can reserve four-hour sessions to work in the CCIE Practice Labs for only $50 USD per session. And you can reserve as many sessions as you need while you practice for your CCIE lab exam at home.

The preconfigured labs give you hands-on practice with various scenarios and questions you'll likely face in the actual exam. You'll also be able to work with topologies and configurations you'll encounter on the lab exam.

With that kind of preparation, you'll gain the experience and confidence to go ahead and schedule that lab exam. Then you're in position for success—with your exam and your career.

How to order

Take a look at the CCIE Practice Labs Ordering Guide for more information about eligibility, price, and easy steps to order.

Make sure you are registered in our CCIE portal by providing us with your Written Exam registration ID. Once registered, visit our CCIE Practice Labs registration portal to reserve your seat.
