The bridge to possible

Cisco Training Bootcamps for Open Enrollment

Intensive technology training for individuals and small teams

Cisco Training Bootcamps offer intensive training that will help you ramp up your IT skills to meet new challenges in the industry.

Intensive, hands-on learning builds applicable skills

We deliver a 9-day course over 8 weeks that follows a rigorous schedule, with repetition of highly relevant content to help you retain your new knowledge and start using those skills to boost your career opportunities.

During the Bootcamp, you will:

- Receive a kick-off document: Self-study prerequisite materials to help you get a head start and prepare for the training

- Attend 5-day virtual instructor-led training (ILT): In-depth Cisco training, including hands-on labs that focus on the foundational concepts you need to know

- Receive self-study materials: To help reinforce the knowledge from the 5-day

training and help you prepare for the deep-dive lab (DDL)

- Participate in 4-day virtual instructor-led deep-dive labs: Dynamic, hands-on training using end-to-end, deep-dive labs to build your confidence and skills

- Receive office hours support: Three 2-hour support sessions conducted using a Webex space

Benefits

- Nine days of intensive training with instructor-led sessions and expert-led, deep-dive labs

- Chance to apply knowledge from hands-on labs to solve real-world automation challenges

- Choice between several automation bootcamps and operations and troubleshooting bootcamps to help you achieve your goals

> **"I have attended hundreds of trainings in the last 15 years, and this was one of the best."**

Akhilesh Pallikkayil
Technical Architect at Allianz Germany
