Navigating the Cisco Secure Firewall ASA Series Documentation

This document describes the available Cisco Secure Firewall ASA series documentation and provides links to access the documentation online.

Note Before you install any hardware, read the Regulatory Compliance and Safety Information for your platform, listed in [Hardware](#), on page 3.

Cisco ASA Documentation by Release

This section lists the ASA series documentation by release. This section includes the CLI and GUI documentation for each version.

-
- Note** ASDM 6.0 and later supports many ASA versions. We include the ASDM documentation with the ASA version when that version of ASDM was introduced; for example 8.4/6.4, 8.3/6.3, and so on. The ASDM documentation and online help includes all of the latest features supported by the ASA. If you are running an older version of ASA software, the documentation might include features that are not supported in your version. Similarly, if a feature was added into a maintenance release for an older ASA version, then the ASDM documentation includes the new feature even though that feature might not be available in all later ASA releases. Please refer to the feature history table for each configuration guide chapter to determine when features were added. For the minimum supported version of ASDM for each ASA version, see [Cisco ASA Compatibility](#).
-

ASA Version 9.20/ASDM Version 7.20

-
- Note** ASA 9.20(1) is supported only on the Secure Firewall 4200. 9.20(2) supports all platforms.

- **CLI Configuration**—*Cisco Security Appliance Command Line Configuration Guide, Version 7.2*
http://www.cisco.com/c/en/us/td/docs/security/asa/asa72/configuration/guide/conf_gd.html

Note ASDM version 5.2 is no longer supported. Use the most recent version of ASDM instead.

Cisco ISA 3000

The Cisco ISA 3000 is a DIN Rail mounted, ruggedized, industrial security appliance. It is low-power, fan-less, with Gigabit Ethernet and a dedicated management port. (9.16 and earlier) This model comes with the ASA FirePOWER module pre-installed. Special features for this model include a customized transparent mode default configuration, as well as a hardware bypass function to allow traffic to continue flowing through the appliance when there is a loss of power.

The **Cisco ISA 3000** documentation is available at:

<https://www.cisco.com/c/en/us/support/security/industrial-security-appliance-3000/model.html>

Cisco Secure Firewall Threat Defense

The Secure Firewall Threat Defense supplies next-generation firewall services, including stateful firewalling, routing, Next-Generation Intrusion Prevention System (NGIPS), Application Visibility and Control (AVC), URL filtering, and Advanced Malware Protection (AMP).

See the Documentation Roadmap for the threat defense:

<https://www.cisco.com/go/ftd-docs>

Cisco ASA FirePOWER Module (9.16 and Earlier)

Note The final release for the ASA FirePOWER module is ASA 9.16 and Firepower 7.0.

The ASA FirePOWER module runs a separate application from the ASA. It is, however, integrated into the ASA traffic flow. To configure the ASA FirePOWER module, you need to configure both the ASA and the ASA FirePOWER module separately.

- Hardware Documentation—See [Hardware, on page 3](#).
- ASA FirePOWER Quick Start Guide—To get started configuring the module for use with the ASA 5500, including sending traffic to the ASA FirePOWER module, see the ASA FirePOWER quick start guide in [Getting Started, on page 1](#).
- ASA Configuration Guide—For additional information about using the ASA FirePOWER module with the ASA 5500, see the ASDM or CLI configuration guide for your ASA version in [Cisco ASA Documentation by Release, on page 7](#).
- ASA FirePOWER Documentation—To configure ASA FirePOWER features on the ASA FirePOWER module operating system, use either ASDM or the FireSIGHT Management Center (5.4 and earlier) or Firepower Management Center (6.0 and later). You can find documentation for the Management Center from the following page:

<http://www.cisco.com/c/en/us/support/security/defense-center/tsd-products-support-series-home.html>

Cisco Secure Client

For Secure Client documentation, see:

<http://www.cisco.com/c/en/us/support/security/anyconnect-secure-mobility-client/tsd-products-support-series-home.html>
